### **Caution Regarding Forward Looking Information**

The 2024 Mercedes Report and the January 29, 2025 News Release may contain forward-looking information and forward-looking statements. Please refer to the January 29, 2025 News Release for cautionary statements related to forward-looking information contained therein. Forward-looking information contained in the 2024 Mercedes Report reflects information, estimates, predictions, expectations, assumptions or beliefs regarding future events that were current on the effective date of the document. Although reasonable at the time, the assumptions on which these forward-looking statements were made may prove to be incorrect. By their very nature, forward-looking statements involve inherent risks and uncertainties, both general

and specific, and risks exist that estimates, forecasts, projections and other forward-looking statements will not be achieved or that assumptions on which they are based do not reflect future experience. We caution readers not to place undue reliance on these forward-looking statements as a number of important factors could cause the actual outcomes to differ materially from the expectations expressed in them. These risk factors may be generally stated as the risk that the assumptions and estimates used to make such forward-looking statements prove to be incorrect or that one or more risks described in the Company's most recent Annual Information Form come to pass. When relying on forward-looking statements, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. The Company does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by the Company or on behalf of the Company, except as required by law.
